

BECOME A MEMBER

You're Invited!

The Horticulture Inspection Society Central Chapter would like to welcome you to the industry and invite you to join our organization!

We are a cooperative organization of inspectors in the Midwestern states of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. Our members are field inspectors, plant pathologists, and entomologists. As an organization, we create partnerships across state lines to help protect industry and the environment from plant pests and diseases. Our group is one of four HIS chapters in the US that works to develop best practice inspection methods and protocols to maintain high standards of vigilance in phytosanitation.

How to Join?

Membership costs \$20 a year. Go to the [membership page](#) of the HIS Central Chapter website to apply today!

Membership Benefits

- Attend annual meetings, workshops, webinars, and interstate inspections for continuing education and training in nursery inspection work.
- Network with inspectors from other states.
- Receive the official CC HIS Newsletter.
- Promote high standards of inspection work and share knowledge.
- Utilize the *Central States Nursery Inspector's Guide* and contribute to updates.
- Participate in a forum for regulatory issues.

Why Join?

Our chapter strives to promote high standards of plant inspection, to provide networking and professional development opportunities to inspectors, and to help inspector knowledge diffuse across state lines. By joining Central Chapter, you can help further this mission. Yearly dues contribute directly to the work of the Central Chapter in a myriad of ways.
